COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

Weather Key Points

Regional Operations Center

Western Region

Monday, June 27

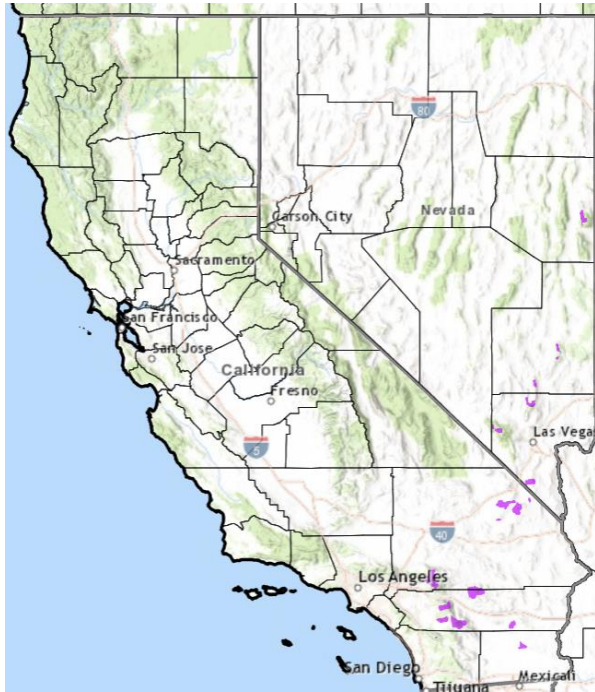

- The weather pattern remains very stagnant across the state into mid week, with continued hot temperatures inland bringing moderate to locally high heat risk impacts. Temperatures will trend cooler for mid to late week.
 - Afternoon readings of 100 to 107 degrees will continue across the Central Valley and inland southern California valleys, with even hotter readings over the southeast deserts on Monday
 - Temperatures will remain warm across the northern California valleys and Modoc Plateau through Monday, with areas of moderate heat risk
 - Overnight low temperatures will fall into the 50s and 60s for many areas, and into the 70 over the southern deserts
- Fire weather conditions will be locally elevated most afternoons through the weekend and much of next week due to breezy winds, particularly through Wednesday. Widespread critical fire weather conditions are not expected.
- Dry conditions continue across the state this week
 - Isolated showers and thunderstorms are possible during the afternoon and evening hours into mid week along the Arizona border.

Precipitation Forecast

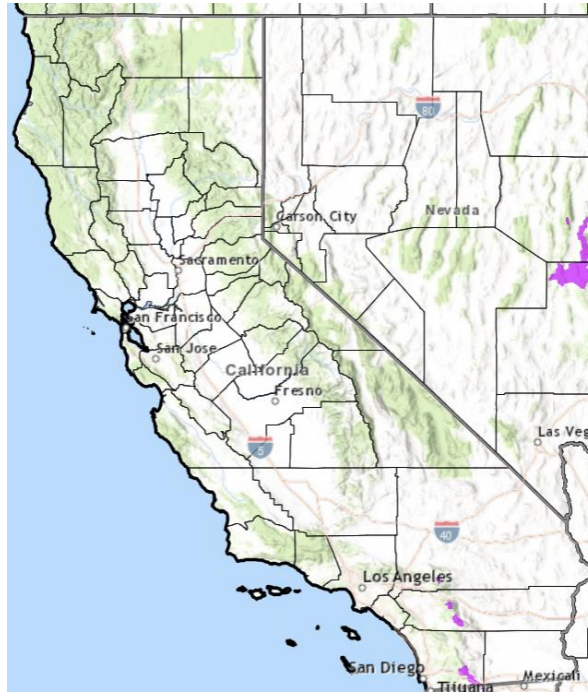

Regional Operations Center

Western Region

Monday, June 27

Monday

Tuesday

Wednesday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Heat Risk

Regional Operations Center

Western Region

Monday, June 27

Monday

Tuesday

Wednesday

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center
Western Region
Monday, June 27

6-10 Day Outlook (July 2 - July 6)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Near normal precipitation is favored for the majority of the state, with above normal precipitation favored along the Oregon border and below normal precipitation over the Sierras

8-14 Day Outlook (July 4 – July 10)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Near normal precipitation is favored for most of the state, except below normal precipitation is favored across the Sierras
